

PROJECT LINUS BENEFIT AUCTION

THURSDAY, DEC. 10, 7PM

Join us for our third annual Project Linus Benefit Auction. Sandy Brittingham has again so graciously volunteered her time to conduct this auction to raise money for Project Linus. For those of you who may not be familiar with Project Linus, it is a national organization that has local chapters of ladies who make quilts and blankets for disadvantaged children in hospitals and shelters. The quilts that are made are used locally and very much appreciated by the recipients. We will auction off many of the class samples from throughout the year that you have seen displayed at Open House. This is a great time to purchase handmade, quality items for yourself or even for special Christmas presents. All of the monies raised that night go to our local Project Linus to purchase fabric and supplies needed to make more blankets. Do your Christmas shopping, enjoy a night out, and support a very worthy organization all at the same time. Please tell your friends and neighbors about this event. It is NOT just for sew-ers, it is for EVERYONE! Let's make this the most successful auction yet!
